CERCLA Covenant and Reservations

This Quitclaim Deed is expressly made subject to the following CERCLA information and specific reservations, covenants and agreements in favor of **Grantor**, and its assigns:

(A) Pursuant to Section 120(h)(3)(A)(i) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA)(42 U.S.C. §9620(h)(3)(A)(i)), and based upon a complete search of site files of the United States Air Force, the United States of America gives notice that **Attachment “A”** provides the following information: (1) the type and quantity of hazardous substances that were known to have been released or disposed of or stored for one year or more on the Property; (2) the time such storage, release or disposal took place; and (3) a description of remedial action taken, if any.

(B) **Grantor** warrants that all remedial action necessary to protect human health and the environment has been taken before the date of this quitclaim. **Grantor** warrants that it shall take any additional response action found to be necessary after the date of this quitclaim regarding hazardous substances located on the Property on the date of this quitclaim.

(1) This covenant shall not apply:

(a) in any case in which **Grantee**, its successor(s) or assign(s), or any successor in interest to the Property or part thereof is a Potentially Responsible Party (PRP) with respect to the Property immediately prior to the date of this quitclaim; **OR**

(b) to the extent but only to the extent that such additional response action or part thereof found to be necessary is the result of an act or failure to act of the **Grantee**, its successor(s) or assign(s), or any party in possession after the date of this quitclaim that either:

(i) results in a release or threatened release of a hazardous substance that was not located on the Property on the date of this quitclaim; **OR**

(ii) causes or exacerbates the release or threatened release of a hazardous substance the existence and location of which was known and identified to the applicable regulatory authority as of the date of this quitclaim.

(2) In the event **Grantee**, its successor(s) or assign(s), seeks to have **Grantor** conduct or pay for any additional response action, and, as a condition precedent to **Grantor** incurring any additional cleanup obligation or related expenses, the **Grantee**, its successor(s) or assign(s), shall provide **Grantor** at least 45 days written notice of such a claim and provide credible evidence that: (a) the associated contamination existed prior to the date of this quitclaim; and (b) the need to

conduct any additional response action or part thereof was not the result of any act or failure to act by the **Grantee**, its successor(s) or assign(s), or any party in possession.

(C) **Grantor** reserves for itself, **the United States Government**, and its officers, agents, employees, contractors and subcontractors, a right of access to and of entry upon all portions of the Property for environmental investigation, remediation or other corrective action. This reservation includes the no cost right of access to, and use of, available utilities at reasonable costs to **Grantor**. These rights shall be exercisable in any case in which a remedial action, response action or corrective action is found to be necessary by the applicable regulatory authority after the date of quitclaim of the Property, or in which access is necessary to carry out a remedial action, response action or corrective action on adjoining property. These actions may include but are not limited to investigations and surveys, to include drilling, test-pitting, borings, data and records compilation and other activities related to environmental investigation, and to carry out any remedial or removal actions required or necessary under applicable regulatory authorities, including but not limited to the installation and operation of monitoring wells, pumping wells, and treatment facilities.

(D) **Grantee** covenants and agrees for itself, its heirs, successors and assigns and every successor in interest to the Property, or part thereof, that a party occupying any of the Property shall not hinder or prevent **Grantor, the United States Government**, and its officers, agents, employees, contractors and subcontractors, in conducting any required remedial investigations, response actions or oversight activities on the Property or adjoining property.

(E) To the extent permitted by applicable law, **Grantee**, its heirs, successors and assigns, agree to indemnify, protect, defend, save and hold harmless, **Grantor**, and its employees, officers, representatives, attorneys and agents, from and against any and all debts, duties, obligations, liabilities, suits, claims, demands, causes of action, damages, losses, costs and expenses (including, without limitation, attorney fees and expenses and court costs) in any way relating to, connected with, and/or arising out of the release, remedial investigations, response actions, remedial actions, corrective actions, or oversight activities concerning any hazardous substance(s) or petroleum product(s) or their derivatives, at, on, or from the Property after the date of this quitclaim in which: (1) **Grantee**, or its heirs, successors and assigns of any of the Property is a Potentially Responsible Party (PRP) with respect to the Property; or (2) any response action required or part thereof is the result of any act or failure to act of the **Grantee** or any party in possession that causes, results in or exacerbates a release of hazardous substances after the date of quitclaim.

(F) **The United States Environmental Protection Agency (EPA), The United States Air Force, and the Missouri Department of Natural Resources entered into a FEDERAL FACILITY COMPLIANCE AGREEMENT, and STATE ATTACHMENT**, concerning DISMANTLEMENT ACTIVITY SUPPORTING THE STRATEGIC ARMS REDUCTION TREATY AND THE SUBSEQUENT CLOSURE OF USAF MINUTEMAN II MISSILE SITES, dated November 16, 1995, (hereinafter sometimes referred to as the FFCA). The FFCA was filed in Johnson County, MO, Recorder of Deeds, Book 1794, pages 71-116, October 10, 2000, under record number 239939. Environmental information including any regulated releases of hazardous petroleum substances, location of buried rubble, location of underground storage tanks (UST's), and location of sump pump outfalls concerning the Property can be found in the Environmental Baseline Survey (EBS). The Whiteman AFB Real Estate Office has a copy of the Environmental Baseline Survey (EBS) on file.

Specific Use Restrictions and Covenants Affecting the Property

Grantee covenants and agrees for itself, its successors and assigns, and every successor in interest to the Property hereby quitclaimed, or any part thereof, that the Property is hereby quitclaimed subject to the following use restrictions and covenants which are covenants running with the land. **Grantee** further covenants and agrees that in the event that the Property, or any part thereof, is sold, conveyed, transferred, leased, or otherwise disposed of, the following notices, covenants, and restrictions shall be inserted in any instrument of conveyance.

The United States of America shall be deemed a beneficiary of each of the following covenants without regard to whether it remains the owner of any land or interest therein in the locality of the Property hereby quitclaimed. The United States of America and/or the State of Missouri shall have a right to enforce each of the following covenants in any court of competent jurisdiction; provided, however, the United States of America and the State of Missouri shall have no affirmative duty to any successor in title to this quitclaim to enforce any of the following covenants herein agreed.

(A) Except as approved in advance, in writing, by the appropriate Federal and/or State Environmental Regulatory Agency, their successors or assigns, no construction, alteration, or similar activity affecting any monitoring wells, other groundwater wells, any other environmental monitoring or remediation equipment, or any other facilities required by the Federal Facility Compliance Agreement (**FFCA**), on the Property is allowed.

(B) No water wells will be installed on the Property.

(C) Except as approved in advance, in writing, on a case-by-case basis, by the appropriate Federal and State Environmental Regulatory Agencies, their successors or assigns, activities which may cause physical penetration and ground disturbance below a depth of two feet beneath the surface of the Property is prohibited. Such prohibited activities include but are not limited to soil excavation, trenching, and installation of building foundations, footings, pilings, or supports, if such activities will extend below a depth of two feet beneath the surface of the Property.

(D) The drainage characteristics of the Property shall be maintained and shall not be disturbed, such that drainage remains away from the Property and the incidences of standing water on the Property are minimized. No alterations shall be made which prevent drainage from the Property or allow standing water to accumulate.

(E) Any future conveyance of this Property shall include notification of the existence of the FFCA.

(F) In the event the **Grantee**, its successors or assigns desire to seek the removal of the specific restrictions and covenants specified above or any portion thereof, except as set forth above, then the **Grantee**, its successors or assigns (record title owner) shall perform or complete all environmental remediation or corrective actions required by law and the applicable Federal, state and/or local regulatory authorities to clean the Property and shall further comply with all laws, rules, regulations and ordinances pertaining thereto, including but not limited to, zoning requirements and the requirements of all applicable regulatory authorities. All costs associated with any such

environmental response action activities and all costs necessary for removal, as specified herein, of the specific restrictions and covenants specified above, or any portion thereof, shall be the sole responsibility of said record title owner, and shall be performed without any payment of funds by the **Grantor**.

(G) The record title owner may be required to submit a work plan to the applicable Federal, State, and/or local regulatory authorities to perform and complete any environmental response action activities needed to seek the removal of the specific restrictions and covenants specified above or any portion thereof. Upon approval of any such work plan, and any condition imposed therein, the record title owner will complete all environmental response action activities as may be required, if any, in accordance with applicable laws, rules, regulations, and ordinances.

(H) The record title owner may be required by the applicable Federal, State, and/or local regulatory authorities to post a completion bond or such other financial assurances in a form reasonably acceptable to the applicable Federal, State, and/or local regulatory authorities that the record title owner will complete any environmental response action activities and cleanup necessary to seek the removal of the specific restrictions and covenants specified above, or any portion thereof. Upon completion of such necessary environmental response action activities, the completion bond and other financial assurances, if applicable, may be released pursuant to the rules and regulations of the applicable regulatory authority.

(I) Upon completion of any required environmental response action activities, the record title owner may be required to submit a close-out report and certification of completion to the applicable Federal, State, and/or local regulatory authorities.

(J) If: (1) the record title owner is required to comply with the procedures set forth in (F)-(I) above, and obtains from the applicable Federal, State, and/or local regulatory authorities a written certification or other evidence in a form acceptable for filing with the county clerk where the Property is located, certifying that all required environmental response action activities for the Property, or any portion(s) thereof, have been completed; or (2) is not required to comply with the procedures set forth in (F)-(I) above, and obtains a written certification from the applicable Federal, State and/or local regulatory authorities or other evidence in a form acceptable for filing with the county clerk where the Property is located certifying that no environmental response action is necessary for the Property, or any portion(s) thereof, in order to release the use restriction, the record title owner must record the stated certification or other evidence in the office of the County Clerk where the Property is located within 90 days after the record title owner satisfies the conditions precedent to the release as set forth above, and a copy of the same will be sent to the **Grantor**.

(K) Any such environmental remediation or corrective action undertaken or completed pursuant to the provisions above shall be subject to the review and advance approval of the applicable Federal, state and/or local regulatory authorities, their successors or assigns.

(L) Upon the approval and completion of all environmental remediation or corrective action called for above, and upon the recording of the final environmental certification or evidence in a form suitable for filing with the county clerk where the Property is located, as referenced above, the specific restrictions and covenants referenced, or portions thereof as specified by the applicable Federal, state or local regulatory authority shall terminate and cease to be of any further force and affect upon the Property.

Specific Environmental Notices, Exceptions, Restrictions and Covenants Affecting the Property

This Quitclaim Deed covering the Property is expressly made subject to the following environmental notices, exceptions, restrictions and covenants affecting the Property to the extent and only to the extent the same are valid and affect the Property:

(A) Notice that the Property contains buried remnants and/or rubble that may contain asbestos-WARNING

(i) The Property may contain asbestos containing material (ACM). The condition of the ACM is varied. **Grantee**, for itself and its heirs, successors and assigns, covenants that it previously inspected the Property and all reports, which have been made available to it, prior to this quitclaim, as to asbestos content and any hazardous condition relating thereto. **Grantee**, for itself and its heirs, successors and assigns, is deemed to have relied solely on its own judgment in assessing the overall condition of all or any portion of the Property, including any asbestos hazards or concerns.

(ii) **Grantee** covenants and agrees that its use and occupancy of the Property will be in compliance with all applicable laws and regulations relating to asbestos; and that **Grantor** assumes no liability for remediation of asbestos or damages for personal injury, illness, disability, death, property damage, or loss of use, business or profits to **Grantee**, its heirs, successors or assigns, or to any other person, including members of the general public, arising from or incident to the purchase, transportation, removal, handling, use, disposition, or other activity causing or leading to contact of any kind whatsoever with asbestos or ACM on, at or from the Property, whether **Grantee**, its successors or assigns have properly warned or failed to properly warn. **Grantee**, its successors and assigns, further agree to be responsible for any future remediation of asbestos found to be necessary on, at or from the Property, at its sole costs.

(iii) **Grantor** assumes no liability for damages for personal injury, illness, disability, death or Property damage arising from: (a) any exposure or failure to comply with any legal requirements applicable to asbestos on any portion of the Property arising prior to **Grantor's** quitclaim of such portion of the Property to **Grantee** pursuant to this Quitclaim deed, or (b) any disposal, prior to **Grantor's** quitclaim of the Property of any asbestos or ACM.

(iv) **Grantee** agrees to indemnify and hold harmless **Grantor**, its officers, agents and employees, from and against all suits, claims, demands, actions, liabilities, judgments, costs, and attorneys' fees arising out of, or in any manner predicated upon, exposure to asbestos at, on or from any portion of the Property or any future remediation or abatement of asbestos or the need therefor. **Grantee's** obligation hereunder shall apply whenever **Grantor**, or its assigns, incurs costs or liabilities for actions giving rise to liability under this section.

(B) Notice that the Property contains buried remnants and/or rubble that contain lead-based paint (WARNING)

(i) **Grantee** is hereby informed and does acknowledge that all remnants and/or remaining below-ground structures or rubble on the Property, which were placed, constructed or rehabilitated prior to 1978, are presumed to contain lead-based paint. To the best of the **Grantor's** knowledge,

except hereinafter provided in this subsection, the lead-based paint on the Property does not currently pose a threat to human health or the environment.

(ii) Available information or inspection results concerning known lead-based paint and/or lead-based paint hazards, the location of lead-based paint and/or lead-based paint hazards, and the condition of painted surfaces has been made available to **Grantee** as provided in the EBS and documentation referenced above.

(iii) **Grantee**, for itself and its successors and assigns, covenants that it has received the opportunity to conduct its own risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards prior to execution of this deed.

(iv) **Grantee** covenants and agrees for itself, and its successors and assigns, that it shall not permit the occupancy or use of any existing buildings or structures on the Property as Residential Real Property without complying with this section and all applicable Federal, State, and local laws and regulations pertaining to lead-based paint and/or lead-based paint hazards. Prior to permitting the occupancy of the Property where its use subsequent to sale is intended for residential habitation, **Grantee** specifically agrees to perform, at its sole expense, the Air Force's abatement requirements under Title X of the Housing and Community Development Act of 1992 (Residential Lead-Based Paint Hazard Reduction Act of 1992)(hereinafter Title X).

(v) **Grantee**, its successors or assigns, shall, after consideration of the guidelines and regulations established pursuant to Title X: (1) comply with the HUD and EPA Disclosure Rule (24 CFR 35, 40 CFR 745, Subpart F), when applicable, by disclosing to prospective purchasers the known presence of lead-based paint and/or lead-based paint hazards as determined by previous risk assessments, (2) abate lead-based paint hazards in paint, dust and bare soil in accordance with the HUD Guidelines relating to abatement, with the addition of abatement of bare soil with lead levels higher than 2000 ppm, and (3) comply with the EPA lead-based paint work standards when conducting lead-based paint activities (40 CFR 745, Subpart L).

(vi) **Grantee**, its successors or assigns, further agree to indemnify and hold harmless Grantor, its officers, agents and employees, from and against any and all suits, claims, demands, or actions, liabilities, judgments, costs and attorney's fees arising out of, or in any manner predicated upon personal injury, illness, disability, death, property damage, or loss of use, business or profits resulting from, related to, caused by or arising out of lead-based paint or lead-based paint hazards at, on or from the Property. Grantee's obligation hereunder shall apply whenever Grantor incurs costs or liabilities for actions giving rise to liability under this Section.

(C) **Notice of PCB Contamination**

(i) **Grantee** is hereby informed and does acknowledge that the Property may contain Polychlorinated Biphenyls (PCBs). To the best of the **Grantor's** knowledge, except as hereinafter provided in this subsection, the PCBs on the Property do not currently pose a threat to human health or the environment.

(ii) Polychlorinated Biphenyls (PCBs) are a hazardous material. Unprotected or unregulated exposures to PCBs have been associated with certain diseases. Both the Occupational Safety and Health Administration (OSHA) and the Environmental Protection Agency (EPA) regulate PCBs because of the potential hazards associated with exposure. Both OSHA and EPA have determined that such exposure increases the risk of certain diseases, which include certain cancers and which can result in disability or death.

(iii) **Grantee**, for itself and its heirs, successors and assigns, shall be deemed to have relied solely on their own judgment in assessing the overall condition of all or any portion of the Property, including any PCB hazards or concerns. No warranties, either express or implied, are given with regard to the condition of the Property including, without limitation, whether the Property is or is not safe for a particular purpose.

(iv) **Grantor** assumes no liability for damages for personal injury, illness, disability, death, property damage, or loss of business, use, or profits, to the **Grantee**, or to its heirs, successors, assigns, employees, invitees, or any other person, including members of the general public, arising from or incident to the purchase, transportation, removal, handling, use, disposition, or other activity causing or leading to contact of any kind whatsoever with PCBs on, at or from the Property which is the subject of this quitclaim, whether or not **Grantee**, its heirs, successors or assigns have properly warned or failed to properly warn. **Grantee** further agrees that in its use and occupancy of the Property or any portion thereof, it will comply with all Federal, State and local laws relating to PCBs, and will comply with the use restrictions specified herein.

(v) **Grantee**, its successors or assigns, shall, after consideration of the provisions of the Toxic Substances Control Act, 15 U.S.C. 2601, comply with the relevant PCB regulations published at 40 C.F.R. 761, et seq., as well as proposed regulations found at 59 F.R. 62788 (Dec 6, 1994), 64 F.R. 33755 (June 24, 1999), 64 F.R. 69358 (Dec 10, 1999), 65 F.R. 18018 (April 6, 2000) and 65 F.R. 81373 (Dec 26, 2000), to the extent they are applicable.

f. **MISCELLANEOUS COVENANTS**

Except as otherwise provided by 42 U.S.C. 9620(h)(3), **Grantee** covenants for itself, and its heirs or assigns, and every successor in interest in the Property, to abide by each of the agreements and covenants, specified herein, which are covenants running with the land. In addition, **Grantor** and its assigns shall be deemed beneficiaries of each of the specified agreements and covenants without regard to whether it remains the owner of any land or interest therein in the locality of the Property hereby conveyed and shall have a right to enforce each of the agreements and covenants in any court of competent jurisdiction. Notwithstanding the foregoing, **Grantor** and its assigns shall have no affirmative duty to any successor in title to this conveyance to enforce any of the agreements and covenants provided herein.

(1) Non-liquid Polychlorinated Biphenyls (CAS #1336-36-3). Non-liquid PCBs were used in water proofing materials during construction at the Property beginning in 1964. Non-liquid PCB's are assumed to still be present in water proofing materials at the Property based on representative sampling. The total PCB concentrations for underground storage tank (UST), pipe, and conduit coatings ranged from non-detect (ND) to 398 ppm; Launch Facility Support Building (LFSB) waterproofing and damp proofing ranged from 7 ppm to 25,000 ppm; and silo waterproofing ranged from 28 ppm to 33,000 ppm. All TCLP-PCB concentrations were less than 10 ppb (ranging from ND to 6 ppb). The UST was closed in-place and most of the piping and conduit were disposed as Toxic Substance Control Act-PCB waste, and a limited amount of piping and conduit remains buried on Property. Low concentrations of total PCB's (maximum 5.2 ppm) were identified in representative samples of the hardened intersite cable system's inner cable components, a short section of which is buried under the south portion of the Property.

(2) Detailed restrictive covenants and reservations have been included in this Quitclaim as a result of referenced substances. As part of continuing efforts to verify that the above-mentioned non-liquid PCB's do not pose a significant risk to human health or the environment, twenty-one former Launch Facilities (LFs)(not including this Property) have ongoing long-term ground water monitoring to allow further evaluation of the potential for impacts from non-liquid PCB's (and related constituents) at all former LFs. The results, which to date have been less than the action levels, will also be used to evaluate the need, if any, for further action at the former LFs. This Property not was recommended for long-term monitoring, based on an evaluation of past PCB investigations.

(3) Liquid PCB's in soil (CAS #11097-69-1). Liquid PCB's were used in equipment such as capacitors and filters when the missile system facilities were operational (1964 to 1992) but were removed during deactivation. In 1992, the sump pump outfall soil was sampled to assess the potential of a liquid PCB release. Concentrations for PCB's were not detected and no remedial action was required.

(4) Chromium (CAS #7440-47-3). An unquantified volume of sodium chromate coolant solutions was stored or used on the Property from approximately 1963-1994. All fluid and associated equipment were removed from the Property by 1994.

(5) Limited amounts of hydraulic fluid, lead, Diazene, mercury, cadmium, pesticides, solvents, and paints were used and/or stored on the Property. All materials, including the ordnance and lead acid batteries, were removed during deactivation, and no releases other than those deemed *de minimis* were identified. Environmental testing exhibited concentrations of these and/or related constituents that were less than their respective action levels.

Approximately two cubic yards of friable Asbestos-Containing Material (ACM) was removed in 1994 and disposed at an approved facility. Sodium chromate coolant tank insulation material containing ACM and lead-based paint (LBP) was disposed off-property as a characteristic hazardous waste.

No ACM exists at or above grade at the Property.

A small but unquantified amount of ACM exists in remnant coal tar and asbestos felt-coated piping buried at least seven feet below original grade. Most of this material, which was present as UST and pipe coating, was removed from the Property as regulated waste. Access to these ACM remnants by future owners is limited by restrictions on subsurface development due to Polychlorinated Biphenyls.
